

## **Chemical Peels:**

Chemical peels are an effective way to treat a wide variety of skin conditions and concerns. We can customize a skincare package to meet your specific skincare needs and goals.

\*We do not use chemical peels on anyone that is pregnant or breast feeding, has an aspirin allergy or a current cold sore/ shingle outbreak. Please let us know if you fall into this category.

We offer the following chemical peels:

### **Light chemical peels: \$75**

(20 minutes will include cleanse of skin application of peel re cleanse of skin and application of sunscreen.)

\$55 when added to a microdermabrasion treatment.

Light chemical peels that are most often used after a microdermabrasion but can be used on their own.

Typically will not provide client with peeling at home. Light chemical peels are a way of exfoliating the skin to bring back a healthy luster in the skin and help with clogged pores. \*Please read pre and post care instructions.
